Re-Name		presentaion week 6	New Page	Diar - Registration	Yelnur - Db	Yelnur - Db
Tools page	Arsen - Api	Integrating - registration	Yelnur - Db	Presentaion week 7		
		Arsen - Api	New Page	Presentaion week 8		
	Integrating new page			Presentaion week 9		
	finishing up the project	finishing up the project	finishing up the project	Presentaion week 10		

Design

1

Design was done by - Abylkhair

2

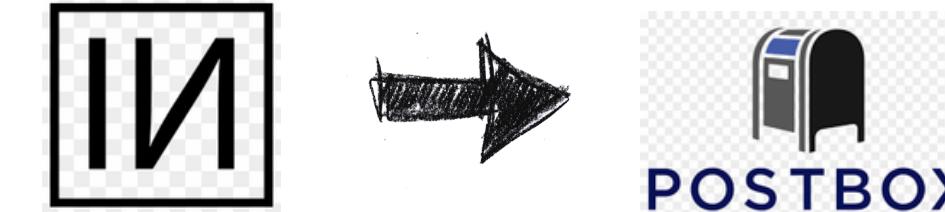

Colors for website
was taken from here

2

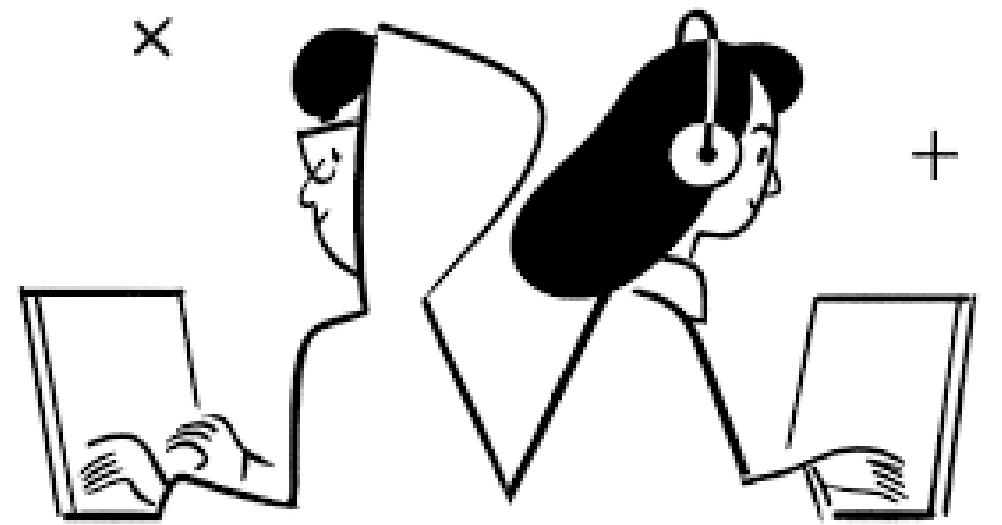

From the first design to the current
one

3

the prototype of the site served as layouts -
Notion, Coolors, Apple websites

coolors

Final logo

New logo and rebranding

Social covers

Your logo is just the beginning!

Backend

1

Backend was done by - Yelnur

2

From the first design to the current one

1

Connect with frontend and do in back end

2

Add auth (Login and Register) and Dashvord

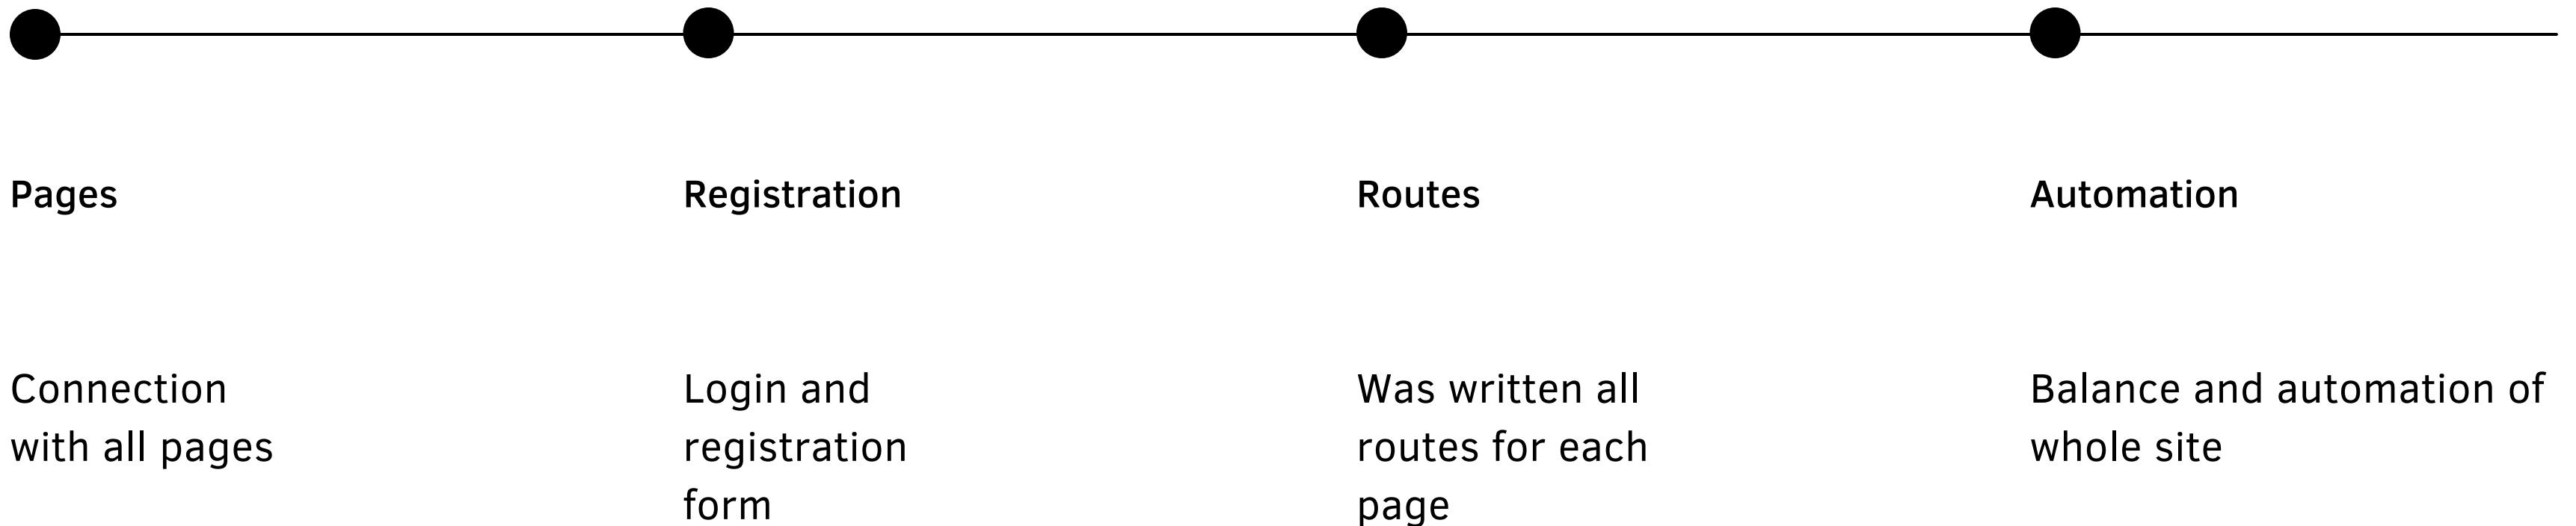

3

Add Profile page where you can change passwotd and uwer name

4

The final function until end-turn is add "REST API"

Architecture of Backend

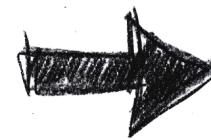

Frontend

1 Backend was done by -Diar

1

We work with 5 view
and finished => 35
views :)

2
